Downloading PyCharm

- To use the free, open-source version of PyCharm, download the "Community" version
- URL: https://www.jetbrains.com/pycharm/download/

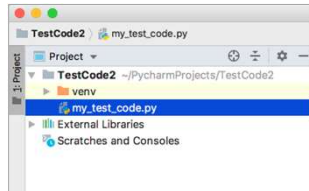

4

Using PyCharm

- Start by creating a "Project" and create Python files within that project
- You'll see your project and files in the Project navigator to the left

5

Using PyCharm – Running Code

- To run a script, use the keyboard shortcut CTRL + OPTION + R
- Or go to Run → Run
